Meet the snowman and enjoy the festive food and clothes. Sometimes when I try to look at the ad to do something my game will crash, but it will not return to the normal iPad home screen ... so the creators of this game please read this (good suit7), but in any case please fix this! But besides, this game is the best! Tom's cute, he's got a lot of great types of clothes, and my favorite... Whatever you say in a sweet voice Tom says it I also like the blender to make a drink for Tom and the price of your style where Tom and someone else's Tom have a fashion show basically who gets the most votes on their clothes wins! And plus nothing costs good if you want to get more money or something.... You can do it, but you can do a few more things, and I've forgotten those other things... But if you've ever decided to get this game your decision is perfect because this game is fun funny and most of all the best game I've ever had! Also the creators of this game I have a suggestion maybe we can have a few toms I know it's a lot of work but more fun! Thank you for reading my review and remember that you are perfect! I played this game for about a month and then deleted it. Later, I downloaded it again for less than a week, then deleted it. The concept of this game is cool. You can take care of your own pet cat (it looks and behaves like a child, in addition to different colored furs, tails and ears). I'm a little older than the target audience and I've noticed that some ads might be inappropriate or upsetting for young children. It also becomes boring after a while. In My Angela, another game of outfit7, the gameplay is a little more interesting and addictive. Another problem with this app is that you watchEd Toma go to the bathroom. You can't see anything, but it's a little inappropriate. One problem that many reviews talk about, but I disagree with is the man in Those Eyes. First of all, I've never seen him in my entire game. Secondly, from what I hear, it's just a few pixels in Tom's eye that happen to resemble a person. Third, if there's a person in Tom's eyes, it's probably just details so he looks like he sees you. In the end, parents, you know that Tom repeats what your child says; It's part of the game! That's my opinion on this issue, and I would recommend this app only to children over 6, with parents who understand that this app has little questionable content. Thank you for reading it. I am aware that this game is directed towards children 4-8 y/o. I'm 14 y/o and play this game, mostly for nostalgia. I played Outfit7 games back in the days when Talking Tom came out (I was about 4), and I've been playing My Talking Tom since it was first released when I was 11 or 12. Lately I've been seeing a bunch of ads for this game and I decided, why not?, so I took it down. I play it for a few hours in total, and I'd say I like this game, I don't like it, but it's based on personal preferences. I find this game to be more childish than the first My Talking Tom game (not that the first game wasn't childish), the visuals are much softer and everything is 10 times easier. However, I can't complain about it because it's geared towards young children, as I said earlier. I can't really see myself enjoying this game as long-term as I did with my first Talking Tom game (partly because of my age when MTT came out compared to my age now, and partly because of personal preferences), but I recommend 10/10 if you are under 8 years of age, or if you are a parent or smth and want to keep your child (s) busy for some time The developer, Outfit7 Limited, has indicated that the app's privacy practices may include data handling as described below.
